

Realizing Landscape Installations

Based on our successful experience of **LandWorks Sardinia 2012** in regarding and reconsidering the unique landscapes of the Geomineral Park, UNESCO heritage, in Sardinia, the **LANDWORKS no profit Cultural Association** in collaboration with the **Parco dell'Arcipelago di la Maddalena**, the Assessorato all'Ambiente della Regione Sardegna, the Agenzia del Demanio della Sardegna, the Comune di La Maddalena and other partners, will realize a number of on-site projects to underline the significance of the landscape, the natural and cultural heritage of **Caprera Island**.

It will open new perspectives and opportunities for future development.

Together with local actors under the guidance of internationally renown guests the workshop participants will build **temporary and permanent installations.**

Ideation and Direction

Prof. Stefan Tischer
Director MMLU@AA

Coordination

Annacaterina Piras

Assistant

Paola Serrittu

with the participation of

Sue Anne WARE | RMIT | Melbourne
